SUMMARY

I am a Data Science student at Oregon State University interested in machine learning, physiological data, and visualization. I have experience working in web development as well as psychological science related projects with SoundTrip.

EDUCATION

Oregon State University Expected June 2028

B.S. in Data Science · Minor in Computer Science

Relevant coursework Linear Algebra, Data Structures

EXPERIENCE

EEG Research | SoundTrip LLC Jul–Sep 2026

- Contributed to Nouscope, a browser-based tool visualizing EEG, heart-rate (PPG), and motion (IMU) data from Muse headsets.
- Worked with EEG traces, spectrograms, and frequency-band metrics to support exploration of entrainment research.
- Helped develop SoundTrip Web, an interactive 3D spatial-audio experience with immersive soundscapes.

President & Co-Founder | OSU Computer Hardware Club Nov 2024–Present

- Co-founded a student club focused on hands-on computing projects and collaborative learning.
- Led server-building projects and organized interactive activities to promote teamwork and technical skills.

Personal Website | scottcampbell.me Sep 2024–Present

- Built and maintained an open-source website showcasing music, software projects, and school club information.
- Used HTML, CSS, JavaScript, and TypeScript to develop and update site content.

Private Tutor | Menlo Park, CA Nov 2023–Jun 2024

- Taught object-oriented programming and algorithms in Java, plus AP Statistics concepts like probability and data analysis.
- Adapted lessons to a student's learning needs, strengthening technical communication and problem-solving skills.

Digital Media Assistant | San Francisco Wine School Jul–Aug 2023

- Organized and cataloged digital media assets for marketing and content management.
- Reformatted and migrated company blog posts to a new website hosting platform.

SKILLS

Programming Python, R, C++, Java, JavaScript, TypeScript, HTML, CSS

Tools & systems Git, GitHub, VS Code, R Studio, Linux (Ubuntu)

Data & analytical Statistical analysis, probability, EEG data visualization

Transferable Communication, teamwork, leadership, technology, professionalism
